REPORT.

Aboriginals Department, Adelaide, September 18th, 1913.

Sir—I have the honor to submit my report on the working of the Aboriginals Department for the financial year ended June 30th, 1913.

During the year a few more neglected half-caste children have been removed from the blacks' camps and placed under the care of the State Children Department. They, and those previously taken, are doing well and rapidly learning civilised habits and manners.

The aborigines who used to infest the city and suburbs have all been removed and placed on Point McLeay, where they are kept and provided for under the Act. They are quite happy there and behave themselves well.

1913	784	340	48	240	12	71

The above shows a very large increase in consumption of stores at the Point McLeay Mission Station. This is probably owing to the fact that so little is now produced there, consequently the Superintendent has to depend much more largely on Government stores.

NORTHERN TERRITORY.

The usual supplies of stores have been sent by me to depots south of Powell's Creek, costing the Commonwealth Government over £1,000.

I have, &c.,

W. G. SOUTH, Chief Protector of Aborigines.

The Hon. Commissioner of Public Works, Adelaide.
